Following are our plans for providing proper maintenance for the Director of Parish Services Intern and meeting the financial costs associated with the internship.

This agreement between the congregation, the district of Lutheran Church–Canada in which the Intern is assigned, Concordia University College of Alberta, and the student is based on the assumption that all share in the responsibility of providing and educating Directors of Parish Services for the church.

The Council of Presidents of Lutheran Church–Canada, in consultation with the Director of Church Work Programs of Concordia University College of Alberta, will place Director of Parish Services Interns into teaching congregations.

These placements are made with the assumption that students need the opportunity to gain experiences and insights in a parish setting in preparation for full-time service to the church.

The Intern is to regard himself/herself and is to be regarded by the supervisor and the congregation as a Director of Parish Services in training.

He/she shall serve in accordance with the objectives and policies of Concordia University College of Alberta, of which he/she is a student.

The congregation through its on-site supervisor (pastor or other supervising personnel) retains complete responsibility for the programs and spiritual life of the members of the congregation.

The on-site supervisor accepts the responsibility to provide the kind of professional guidance and direction that will enable the Intern to derive the greatest possible value from his/her congregational experience.

The congregation supports the practical education experience of Lutheran Church–Canada’s Director of Parish Services students by submitting a payment of \$1,000.00 to Concordia University College of Alberta for the administration of the internship program.

Concordia University College of Alberta holds itself responsible for site identification visits; orientation of the student, the on-site supervisor, and the congregation; for supervision and evaluation during the internship, and for the assignment of the grade for the internship.

The agreement is ordinarily terminated at the end of the internship.

This agreement covers the 12 month (or 9 month) term beginning _____
